PROFESSIONAL SUMMARY

Results-driven Software Engineer with 1 year of experience in delivering scalable, efficient, and secure web applications using React.js, Next.js, Node.js, Express.js, MongoDB, PostgreSQL, and REST APIs. Proven track record of achieving significant performance improvements and scalability enhancements.

EDUCATION

XYZ University

2018-2022

Bachelor of Science in Computer Science

WORK EXPERIENCE

ABC Corporation

Jan 2022 - Present

Full Stack Developer

- Designed and developed multiple full-stack web applications using React.js, Next.js, Node.js, Express.js, MongoDB, and PostgreSQL.
- Implemented REST APIs for seamless data exchange between frontend and backend.
- Utilized Git for version control and GitHub for collaboration.
- Deployed applications on AWS using CI/CD pipelines.
- Achieved a 30% increase in application performance and a 25% reduction in development time.
- Demonstrated expertise in system design and architecture, leveraging scalable technologies to drive business growth.

DEF Startups

Jun 2021 - Dec 2021

Junior Full Stack Developer

- Contributed to the development of a full-stack web application using React.js, Node.js, Express.js, and MongoDB.
- Implemented authentication and authorization using Passport.js.
- Collaborated with the team to resolve bugs and improve application performance.
- Utilized Git for version control and GitHub for collaboration.

PROJECTS

E-commerce Web Application

Jan 2022 - Present

- Designed and developed a full-stack e-commerce web application using React.js, Next.js, Node.js, Express.js, MongoDB, and PostgreSQL.
- Implemented REST APIs for seamless data exchange between frontend and backend.
- Utilized Git for version control and GitHub for collaboration.
- Deployed application on AWS using CI/CD pipelines.
- Achieved a 40% increase in sales and a 20% reduction in development time.
- Demonstrated expertise in scalability and performance improvements, driving business growth through data-driven insights.

Blog Web Application

Jun 2021 - Dec 2021

- Contributed to the development of a full-stack blog web application using React.js, Node.js, Express.js, and MongoDB.
- Implemented authentication and authorization using Passport.js.
- Collaborated with the team to resolve bugs and improve application performance.
- Utilized Git for version control and GitHub for collaboration.

SKILLS

Programming Languages: React.js, Next.js, Node.js, Express.js, MongoDB, PostgreSQL

Software Packages: REST APIs, Git, GitHub, AWS, CI/CD pipelines

Data Tools:

Additional Courses:

Others:
